

OSHA 10-HOUR TRAINING FOR CONSTRUCTION

Some states require OSHA 10-Hour Outreach Training for construction employees before they start work. S/P2 now offers this training through its system for just **\$55 per student**.

WHAT'S INCLUDED?

Course Topics:

- Introduction to OSHA
- Fall Protection
- Electrocutation
- Struck-By Hazards
- Caught-In/Between Hazards
- Personal Protective Equipment (PPE)
- Health Hazards
- Materials Handling
- Hand and Power Tools

Upon successful completion of the OSHA 10-Hour Construction training, the student will receive a certificate of completion. In addition, **an official OSHA plastic card from the U.S. Department of Labor will be mailed in 2 to 3 weeks**. The student will also get a badge on their S/P2 resume on S/P2 Careers.

Course type: Online

Course duration: 10 Hours

Who should take this course? Students who are graduating or students who are interested in an additional credential

Testing:

- 9 Chapters
- 180 minutes to complete final exam
- 20 multiple choice questions
- 3 opportunities to pass

OSHA Outreach Training is provided in partnership with OSHA Education Center and the University of South Florida, an OSHA-authorized online Outreach Training provider.

UNIVERSITY OF SOUTH FLORIDA
